Caregiving Flows Automatically with AbilityHUB

A secure, easy-to-use app for caregivers and the individuals they support.

AI-powered Care Companion, helps with guidance and reminders

Shared Calendar & Scheduler to keep everyone in sync

Wellness Dashboard that tracks health and progress

Incident Reporting that captures and shares status instantly

The CareTech Duo

A mix of digital tools in a systematic workflow allows care teams to effectively coordinate and save time. Where compliance and paperwork run seamlessly in the background, while professionals stay focused on solving for bigger impact. Together, the platforms build one unified care ecosystem where:

- ▶ **Care Managers and Coordinators gain a complete case overview** and track updates without scanning through multiple updates, documents or notes.
- ▶ **Service Providers and Caregivers work with organized schedules**, clear visit details, and progress notes making care delivery smooth and reliable.
- ▶ **Funders and Regulators receive error-free reports** that demonstrate clarity, accountability, and measurable client outcomes.

A true game-changer! FieldWorker keeps us effortlessly ahead of regulatory requirements.
